Job Description for the post of:

**Software Solutions Developer – (KTP Associate)
EHA1817-0219**

Fixed term 36 months

Based at Country Range, near Burnley, Lancashire

Reporting to: Dr. Marcello Trovati, Reader in the Department of Computer Science

Accountable to: Professor Nik Bessis, Head of Department of Computer Science

The Post

This post offers an exciting opportunity to work on a ground breaking project in the field of data science with a highly respected academic team and an innovative and successful company.

Knowledge Transfer Partnerships (KTP) is a national scheme administered under the jurisdiction of Innovate UK to facilitate business-university collaboration in tackling key, strategic business-led projects. KTP projects are high impact projects which use knowledge informed research to achieve the significant levels of innovation. The role of the Software Developer - KTP Associate is to facilitate the transfer of knowledge from the University to our Partner (The Country Range Group) via the planning and delivery of a key software development project.

The KTP will build significant new capacity in The Country Range Group and strengthen their position as a market leading foodservice group. The project will develop a smart management, member and customer insight information system, utilising deep learning from real-time business performance and market data, to drive growth through data-driven decision making. For the University, this project will allow for the demonstration of significant economic and societal impact of our research base.

The Country Range Group central office represents 12 independent wholesale food suppliers who operate out of 18 depots throughout the UK and Ireland. The Country Range brand is widely recognised by caterers as trusted and reliable delivering consistent quality for over 20 years.

To allow for the effective delivery of the project and transfer of knowledge, the post will be based on the premises of Country Range, near Burnley, Lancashire.

Duties and Responsibilities

1. To play a leading role in the delivery of the KTP, working with all stakeholders to ensure efficiency and success.
2. To develop the full system and user requirements for the proposed solution.
3. To design the architecture and the components of the solution.
4. To develop and integrate the necessary components of the system using an agile, test driven development approach.
5. To work closely with the academic team to develop novel techniques for information extraction, discovery and predictive analytics.
6. To produce full detailed documentation of the system at key points throughout the project.
7. Preparation and delivery of resources and training materials for relevant user levels.
8. To assist in the writing of academic output to support the findings of the project.
9. To adhere to the project management, administrative and other compliance protocols required for the KTP.
10. The successful candidate will be required to travel to various stakeholder offices around the UK throughout the project.

In addition to the above all Edge Hill University staff are required to:

- a) Adhere to all Edge Hill's policies and procedures, including Equality and Diversity and Health and Safety
- b) Respect confidentiality: all confidential information should be kept in confidence and not released to unauthorised persons
- c) Undertake appropriate training and development as required
- d) Participate in Edge Hill's Performance Review and Development Scheme
- e) Adhere to Edge Hill University's environmental policy and guidelines and undertake tasks in a sustainable manner
- f) Demonstrate excellent Customer Care in dealing with all customers

Salary: £30,395 - £33,199 per annum

Hours: Full time

However, it is expected that the post holder will work flexibly according to the on-going demands of the job and responsibilities at this level.

Candidates should note that shortlisting will be based on information provided on the application form with regard to the applicant's ability to meet the criteria outlined in the Person Specification attached.

PERSON SPECIFICATION
