### **About the Faculty/Department**

Library and Learning Services provides a responsive and supportive environment for students and staff, developing and supporting learning through a wide range of services, facilities, research, technology and information including:

- Information/learning resources print and digital
- Library Services Ormskirk and Manchester
- Digital Learning Technologies Blackboard and tools for teaching and learning
- UniSkills digital/information literacy and academic writing for students
- Specialist support for students with SpLD
- Research support
- Supporting the development of digital skills for staff and students

#### The Team

The Digital Learning Technology Team support the use of the suite of tools known as Learning Edge and aim to develop the effective use of technology for teaching and learning. The team includes Learning Technology Development Officers who work with Academic staff to support the development of courses, Systems Technical/Support who are the first port of call for staff queries, Digital Training who coordinate Library & Learning Services staff development offer and deliver digital training sessions and Content Development who support our online partnerships and programmes offer. The whole team engages in projects to develop, introduce and support new tools for teaching and learning.

#### **About the Role**

As a member of the Digital Learning Technology Development Team within Learning Services, the post holder will work alongside colleagues across the University in the development of a broad range of blended and online programmes across our undergraduate, postgraduate and emerging international provision.

The role will develop best practice guidance for the design and development of high quality blended and online course provision, making the best use of digital learning technologies to support future developments in relation to an increasingly diversified academic portfolio.

Providing expert advice, guidance and support the role will have a strong focus on design, development and realisation of digitally enabled teaching and learning at the

University. The role will demand that you are organised, able to manage priorities and your time effectively to meet multiple deadlines and deliver a range of outputs.

The post will normally be based at the Ormskirk Campus, but the postholder will be required to work flexibly, this may include evenings and weekends if required.

### **Duties and Responsibilities**

# To support the development of pedagogically sound programmes for blended and online delivery

- 1. Support with the design and development of high quality, interactive, media rich course content suitable for blended and online delivery through the application of sound pedagogic principles.
- 2. To liaise with the Senior Content Developer and relevant academic and managerial staff across the university to understand the requirements which are to inform the course development from a technical perspective.
- Identify and develop expertise in content authoring tools to develop resources which meet the diverse needs of students potentially studying in low resource settings.
- 4. Contribute to the production of learning content from initiation to completion within the agreed timescales.
- 5. To actively maintain knowledge of the latest developments relating to accessibility within the context of content and curriculum development ensuring inclusive approaches to design and development are adopted and translated into the final output.

# To support the development of staff skills in the effective design and development of educational resources to meet specific learning outcomes

- 6. Support and facilitate staff development sessions in effective design, development and delivery of online and blended content in conjunction with colleagues in CLT.
- 7. Investigate and evaluate new developments in the field of digital learning

technologies incorporating best practice into content and curriculum development.

### To provide wider support for digital learning technologies

- 8. Proactively contribute to the SOLSTICE fellowship and other relevant University committees or groups, participating in relevant forums and conferences.
- Actively engage with physical and virtual networks and professional groups related to digital learning to develop personal and professional knowledge, skills and confidence.
- 10. Represent the University in various regional, national and international forums, attending seminars and conferences related to digital learning, to showcase University developments, research and evaluations.
- 11. Provide cross team support to colleagues within the division to support the delivery of Digital Learning across the University.
- 12. Promote and support the University's centrally-managed Digital Learning Technology systems with a particular focus on the effective use of Learning Edge and associated tools.
- 13. Contribute to the development and delivery of a comprehensive staff development programme that supports the delivery of excellent Digital Learning.

### In addition to the above all Edge Hill University staff are required to:

- a) Adhere to all Edge Hill's policies and procedures, including Equality and Diversity and Health and Safety
- b) Respect confidentiality: all confidential information should be kept in confidence and not released to unauthorised persons
- c) Undertake appropriate learning and development activities as required
- d) Participate in Edge Hill's Performance Review and Development Scheme
- e) Adhere to Edge Hill University's environmental policy and guidelines and undertake tasks in a sustainable manner
- f) Demonstrate excellent Customer Care in dealing with all customers
